

Carbon-Liq

Organic carbon supply for aquarium plants

PACKAGING

- **100 ml** for an aquarium from 4 000L (1 056 Gal)

- **250 ml** for an aquarium from 10 000 L (2 500 Gal)

- **500 ml** for an aquarium from 20 000 L (5 000 Gal)

CARBON-LIQ is a supply of liquid organic carbon for aquatic plants. Its active ingredients are degraded in the aquarium, without generating waste. They bring organic carbon to the plants and promote their growth via photosynthesis.

Directions of use: once a week (or every 2 days if the aquarium is heavily planted), pour directly into the aquarium at the outlet of the filter exit.

- Do not leave within the reach of children
- Do not overdose.
- Contains glutaraldehyde.

DOSAGE

- Aquarium from 0 to 100 L (0 - 26 Gal): *0 à 2,5 ml*
- Aquarium from 100 to 200 L (26 - 53 Gal): *2,5 à 5 ml*
- Aquarium from 700 to 800 L (185 - 211 Gal): *17,5 à 20 ml*
